

Ali Mohammed Al Shehhi

Chief Operating Officer, ADSB

Ali Mohammed Ali Al Shehhi is Chief Operating Officer of ADSB, an EDGE entity that specialises in the building, maintenance, repair, refitting, and conversion of naval and commercial vessels. In this role, he is tasked with providing strategic direction and overseeing the administrative and operational functions of the company, as well as maintaining synergies with clients, business partners, and stakeholders.

Prior to his current role, Al Shehhi was the Production and Operations Director at ADSB. Earlier, Al Shehhi was Deputy Programme Manager at EDIC land systems, a renowned UAE-based manufacturer of weapons and other defence products, where he was responsible for managing the scope, cost, and schedule of projects, as well as preparing and updating project plans and status reports. Previously, he served in the UAE Navy in several positions such as technical workshops in various naval bases.

Ali Mohammed Ali Al Shehhi holds a bachelor's degree in Mechanical Engineering from the Military Technical College (MTC) in Egypt. After retiring from the Navy where Al Sehhi worked in technical, engineering and administrative fields, he completed various technical and personal development training courses, including the Lean Six Sigma Green Belt and several courses at DynCorp International, such as Performance Management.
