About EDGE

Launched in November 2019, the UAE's EDGE is one of the world's leading advanced technology groups, established to develop agile, bold and disruptive solutions for defence and beyond, and to be a catalyst for change and transformation.

Placing a priority on national security and solving real world challenges, EDGE is dedicated to bringing breakthrough innovations, products, and services to market with greater speed and efficiency, to position the UAE as a leading global hub for future industries, and to creating clear paths within the sector for the next generation of highly-skilled talent to thrive.

Headquartered in Abu Dhabi, capital of the UAE, EDGE employs more than 6,000 brilliant minds, and consolidates more than 20 entities into four core clusters: **Platforms & Systems, Missiles & Weapons, Electronic Warfare & Cyber Technologies**, and **Trading & Mission Support**.

With a focus on the adoption of 4IR technologies, EDGE is driving the development of sovereign capabilities for global export and for the preservation of national security, working with front-line operators, developing deeper international and local partnerships across the defence and technology spectrum, and adopting advanced technologies such as autonomous capabilities, cyber-physical systems, advanced propulsion systems, robotics and smart materials. EDGE is creating interoperability and developing cross domain expertise – responding to an era where adaptability is everything.

EDGE converges R&D, emerging technologies, digital transformation, and commercial market innovations with military capabilities to develop disruptive solutions tailored to the specific requirements of its customers.
